Dear Sir:

This Information Disclosure Statement (IDS) is being filed for consideration after payment of an Issue fee on Mar. 11, 2003 and then the filing of a RCE filed Dec. 4, 2003 along with an IDS. This Information Disclosure Statement is supplemental to the IDS filed Dec. 4, 2003 and any statements previous to Dec. 4, 2003.

This Information Disclosure Statement (IDS) is being filed with the required \$180.00 fee per 37CFR 1.17(p).

As part of this Information Disclosure Statement are listings on modified 1449 forms of : A) US Patent References, B) Foreign Patent References, C) Non Patent Disclosures and Other References, and D) US Patent Application Publications. The 1449 forms address disclosures of prior art and relevant art that may pertain to claims of this application.

Each of the four above described lists includes references to Footnotes of Special Interest. The "Footnotes-References of Special Interest" are included to provide assistance to the Examiner while determining allowability of the claims. Footnotes 1-97 were sent in on Dec. 4, 2003 and Footnotes 98-113 are included herewith.

Copies of some PTO Office Actions on Third Party Patent Applications for somewhat related Inventions are also herewith included and may be helpful to the Examiner.

Best full or partial copies which Applicant currently possesses of each of the Foreign Patent References and Non Patent Disclosures and Other References are included herewith. Applicant understands that the PTO now

supplies its own copies of the US Patents and US Patent Applications cited in new patent applications. If this is not correct and Applicant is required to acquire paper copies from the PTO and then supply them to the PTO, please inform Applicant as soon as possible so that the copies can be ordered from the PTO and sent to the Examiner. Thank you.

The Foreign Patent References are in some cases foreign patents and in other cases patent applications.

Please consider all Previously and Newly submitted references during the examination of the present application and claims. Thank you.

Please consider the issue of double-patenting regarding this application and Applicant's other pending U.S. applications which can be readily located by a search of the PTO records for pending applications under the Inventor name of "Brad A. Armstrong". Applicant would be happy to discuss each pending claim with the Examiner. If the Examiner wishes and requests such, Applicant would be more than willing to submit copies of all of his currently pending claims. If the Examiner believes that would be helpful, please do not hesitate in requesting such from Applicant. Thank you.

Please consider the issue of double-patenting regarding this application and Applicant's Issued U.S. Patents which can be readily located by a search of the PTO records for issued patent under the Inventor name of "Brad A. Armstrong". Applicant believes that at least the following U.S. Patents of Applicant's should be reviewed for double-patenting: U.S. Patent 5,565,891; U.S. Patent 5,589,828; U.S. Patent 6,222,525; U.S. Patent 6,310,606; U.S. Patent 6,344,791 and U.S. Patent 6,347,997. If the Examiner wishes additional information, please do not hesitate in requesting such from Applicant. Thank you.

Applicant realizes the instant application and this IDS are extensive and sincerely apologizes to the Examiner. Please examine the instant claims thoroughly so that Applicant may receive a valid and worthy Patent. Thank you for your time.

Please do not hesitate in requesting anything from Applicant that might assist the Examiner.

Respectfully,

A handwritten signature in black ink, appearing to read "Brad A. Armstrong", with a long horizontal flourish extending to the right.

Brad A. Armstrong
